KEEP CONSISTENT

01	**Logo**	Use approved lockups with clear space and correct proportions.
02	**Color**	Keep ivory and charcoal dominant; use terracotta as an accent.
03	**Typography**	Use EB Garamond for expressive headlines and Inter for utility.
04	**Imagery**	Choose tactile materials, soft light and quiet compositions.

AVOID Stretching the wordmark, adding effects, substituting colors, mixing unrelated fonts or crowding the layout.
