30-DAY CAMPAIGN

DIGITAL MARKETING

CAMPAIGN PLAN

Strategy / Content / Engagement / Measurement

01	02	03	04
AWARENESS	INTERACTION	ENQUIRIES	REPORTING

PREPARED BY

Suresh Yadav

Fictional brand concept for portfolio demonstration

Executive summary

A focused, organic-first campaign plan built around useful content and low-friction conversations.

30 DAYS
CAMPAIGN WINDOW
One month of planned activity

12
FEED / REEL ASSETS
Planned production output

10
STORY SETS
Polls, Q&A and lightweight prompts

2
SUPPORT TOUCHES
Email / website content

1
PRIMARY CHANNEL
Instagram first; support elsewhere

CAMPAIGN OBJECTIVE

Increase relevant brand awareness and audience interaction, then give interested people a clear path to ask about services or offers.

WHO IT IS FOR

Hypothetical fitness beginners who want confidence and routine, plus regular gym-goers looking for structure and community.

WHAT GOOD EXECUTION LOOKS LIKE

A realistic posting cadence, clear message hierarchy, prompt responses, consistent tracking, and weekly decisions based on actual signals.

IMPORTANT DISTINCTION This is a planning concept. Targets describe planned activity; reach, engagement, enquiries and revenue must be measured after launch.

Brand & campaign context

The strategic opportunity: make the first next step feel manageable, not intimidating.

BRAND ROLE

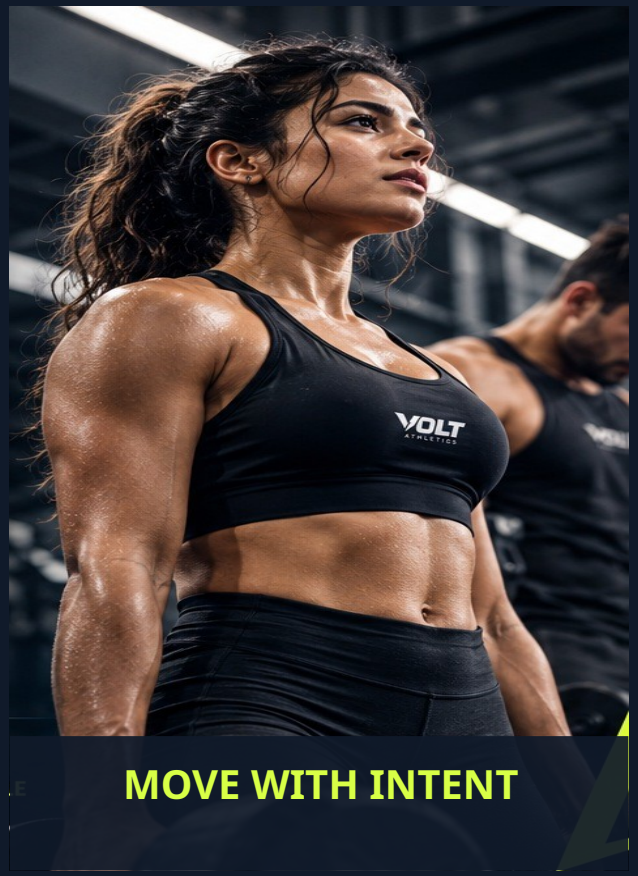

A modern fitness community built around useful guidance, consistent habits and a supportive training environment.

COMMUNICATION CHALLENGE

Fitness content can feel extreme, repetitive or designed only for advanced gym users.

CAMPAIGN OPPORTUNITY

Show small, repeatable actions; make people feel welcome; answer practical questions; explain how to enquire.

Planning assumption: all brand characteristics and audience insights are hypothetical.

CAMPAIGN LOGIC

01	**Help first**	Teach one action per post.
02	**Build trust**	Use real process and clear expectations.
03	**Invite dialogue**	Use low-pressure prompts and replies.
04	**Capture intent**	Make the enquiry route simple and visible.

Two hypothetical audience profiles

Use these as starting hypotheses, then refine them using real conversations and analytics.

SEGMENT A

THE RESET STARTER

“I want to start, but I do not know where to begin.”

MOTIVATIONS	Confidence, simple structure, feeling welcome.
BARRIERS	Intimidation, too much conflicting advice, uncertainty about the first visit.
BEST CONTENT	Beginner checklists, facility walkthroughs, coach introductions, FAQs.
BEST CTA	“Save this” / “DM START with your question.”

Content tone: reassuring, clear, non-judgmental

SEGMENT B

THE ROUTINE BUILDER

“I train already; I want more consistency and community.”

MOTIVATIONS	Structure, accountability, practical ideas, shared momentum.
BARRIERS	Busy schedule, repetitive content, low relevance, weak follow-through.
BEST CONTENT	Weekly planning prompts, session frameworks, community features, coach Q&A.
BEST CTA	“Save the framework” / “Vote for next week’s topic.”

Content tone: capable, practical, community-minded

Objectives, activity targets & budget assumptions

Set controllable commitments first. Set performance thresholds only after a baseline exists.

PLANNED ACTIVITY OUTPUTS

01	**12 feed / Reel posts**	A 3-post weekly rhythm with a small-team production workflow.
02	**10 Story sets**	Use prompts, polls, Q&A and recaps for regular interaction.
03	**6 community touches**	Reply, reshare relevant UGC with permission, and ask useful questions.
04	**2 support assets**	One email touch and one website/resource touch, as relevant.
05	**Weekly report + closeout**	Track awareness, interaction, intent and response quality.

PERFORMANCE OUTCOMES TO MEASURE

Awareness	Reach, impressions, non-follower reach
Interaction	Shares, saves, comments, Story replies
Intent	Profile actions, link clicks, DMs, qualified enquiries
Service quality	Reply time, unanswered questions, common objections

No reach, engagement, lead or revenue outcome is asserted in this concept.

SAMPLE BUDGET FRAMEWORK / ILLUSTRATIVE ASSUMPTIONS ONLY

LEAN — **INR 0-5k**

Organic-first; existing phone and free tools.

TEST — **INR 10-15k**

Lean production + INR 5k test media budget.

GROWTH — **INR 20-40k**

More creative support + INR 10-20k media test.

Amounts are sample planning ranges, not market quotes or actual spend; excludes in-house labor and tax. Validate local costs before launch.

Core message & creative direction

Build a recognizable campaign system that feels energetic without relying on pressure or unrealistic promises.

CAMPAIGN PLATFORM

MOVE WITH INTENT

Better habits. Stronger community.

CORE MESSAGE

You do not need a perfect plan to take the next practical step.

STRATEGIC PROMISE

Useful guidance. A welcoming environment. Clear next steps.

VISUAL SYSTEM

NAVY	CHARCOAL	LIME	WHITE	COOL GREY
#101A2A	#17191F	#D8FF46	#FFFFFF	#A8B0BD

SAY

"Start where you are."
"Save this simple checklist."

AVOID

Shame, miracle claims, before/after promises, medical advice or guaranteed outcomes.

DESIGN CUES

Bold short headlines, high contrast, strong crop photography, 1 lime accent per frame, visible CTA.

COPY RULES

One idea per asset. Use plain English. Describe process and support; never promise specific body or health results.

Channel strategy

Instagram carries discovery and interaction; supporting channels catch the people who want more detail.

REELS

DISCOVERY

Short hooks, movement demos, coach introductions and first-visit explainers.

2 per week max; batch record.

FEED / CAROUSELS

UTILITY

Saveable checklists, session frameworks, FAQs and clear service information.

1-2 per week; reuse templates.

STORIES

INTERACTION

Polls, Q&A, reminders and quick behind-the-scenes updates.

2-3 story sets per week.

COMMENTS + DMs

CONVERSATION

Answer real questions, identify friction and guide qualified interest to a next step.

Check on working days.

EMAIL / WEBSITE

DEPTH

A habit planner or concise guide with a clear enquiry route.

2 support touches across 30 days.

OPTIONAL PAID TEST

AMPLIFICATION

Only boost the strongest organic creative after checking quality and relevance.

Small, capped test; no spend assumed.

CHANNEL RULE Choose channels that can be maintained consistently. Do not open new channels simply to increase activity.

Content pillars

Every pillar has a distinct job; the mix keeps the month useful, human and conversion-aware.

01	EDUCATION	30%	Teach one repeatable action.	Beginner checklist; short-session outline; practical FAQ.
02	MOTIVATION	20%	Make consistency feel achievable.	Small wins; realistic reminders; “start where you are.”
03	COMMUNITY	20%	Show belonging and conversation.	Coach introductions; community prompts; permission-based reshares.
04	SERVICE CLARITY	15%	Reduce uncertainty about the offer.	First-visit walkthrough; how the process works; service explainer.
05	ENGAGEMENT	15%	Invite a low-friction response.	Polls, question stickers, topic votes and short quizzes.

PLANNED MIX

EDU	30%
MOT	20%
COM	20%
SERV	15%
ENG	15%

This is a planning split, not a claim about what performs best. Reallocate only after comparing actual results.

30-day content calendar

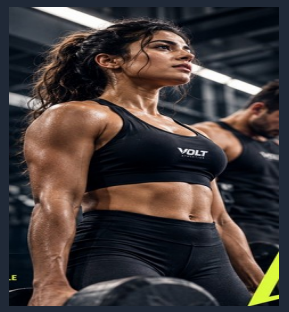

A manageable mix of 12 feed/Reel assets, Story sets, community work and two supporting content touches.

D	FORMAT	TOPIC	OBJECTIVE	CTA
1	Reel	Welcome to VOLT	Awareness	Follow for tips
2	Carousel	3 gym-start habits	Education	Save checklist
3	Stories	Routine barrier poll	Engagement	Vote in poll
4	Community	Reply + comment sweep	Relationship	Ask a question
5	Reel	Prep before a session	Education	Save for later
6	Stories	Ask a coach	Engagement	Drop a question
7	Carousel	Weekly reset checklist	Utility	Save the list
8	Community	Reshare relevant post*	Community	Join the chat
9	Stories	Behind-the-scenes tour	Trust	Reply with Q
10	Carousel	Movement basics: ask a coach	Education	Save / ask
11	Community	Community prompt	Belonging	Tag a partner
12	Reel	Structure a short session	Education	Save outline
13	Stories	Training preference poll	Engagement	Vote
14	Email	Build a repeatable routine	Nurture	Read the guide
15	Carousel	Consistency over intensity	Education	Share reminder
16	Community	Answer common questions	Trust	Send a DM
17	Stories	Monthly goal question box	Engagement	Share one goal
18	Feed graphic	Explore service options	Conversion	View options
19	Carousel	What to expect on day one	Reduce friction	DM START
20	Reel	How the journey works	Trust	See the process
21	Stories	Gym etiquette quiz	Engagement	Take the quiz
22	Community	Reply + permission-based reshare	Community	Share a thought
23	Stories	First-session essentials	Utility	Save story
24	Stories	FAQ question sticker	Engagement	Ask us
25	Carousel	Plan a weekly training slot	Utility	Save template
26	Community	Comment on related accounts	Discovery	Start a chat
27	Stories	Vote next topic	Engagement	Vote
28	Stories	Month recap: key lessons	Retention	Save the recap
29	Web / Email	30-day habit planner	Conversion	Request planner
30	Reel	Invite to next routine	Conversion	DM VOLT

**Reshare only with permission. All days are planned touchpoints; "community" days are not additional feed posts.*

Three campaign creative concepts

Designed to translate strategy into clear, repeatable content that can be produced with simple templates.

01

YOUR FIRST WEEK, SIMPLIFIED

REEL / 15-20 SEC

HOOK “New to the gym? Start here.”

VISUAL Numbered overlay steps, confident coach intro, welcoming wide shots.

CTA Save the guide or DM START with a question.

Objective: discovery + first-step confidence

THE 3-PART SESSION

01 PREP
02 MAIN
03 RESET

02

A REPEATABLE SESSION OUTLINE

CAROUSEL / 5 SLIDES

HOOK “Keep your session simple.”

VISUAL Three clean stages with one line of guidance each; coach review before posting.

CTA Save the outline; adapt it with a qualified coach.

Objective: saves + useful education

WHAT HELPS YOU SHOW UP?

CONFIDENCE
CONSISTENCY

03

FIND YOUR REASON

STORY SEQUENCE

HOOK “What would make training easier?”

VISUAL Two-choice poll, question sticker, then a concise follow-up answer.

CTA Vote, then tell us what support would help.

Objective: replies + audience insight

Five sample captions

Captions are written for the fictional brand and avoid medical promises, shame-based language or guaranteed results.

01 / AWARENESS

A new routine does not need to start perfectly. Pick one practical next step, ask your questions and build from there. VOLT is about progress you can repeat.

CTA: Follow for simple training and community tips.

02 / EDUCATION

Keep your session easy to understand: prepare, follow a plan that fits your experience, and leave time to reset. A qualified coach can help you adapt the details to your needs.

CTA: Save this outline for your next session.

03 / COMMUNITY

Your training partner does not have to share your pace. They just need to support your effort. Tag the person who helps you keep showing up.

CTA: Send this to your training partner.

04 / TRUST

First visit questions are normal. Ask about the space, the process and the support available before you begin. Clear answers make the next step easier.

CTA: DM START with the question you have.

05 / CONVERSION

Looking for a more structured place to train? Tell us what you are working toward and what kind of support you need. We will explain the options available so you can decide whether they fit.

CTA: DM VOLT to ask about service options.

VOICE CHECK Plain English / Helpful, not preachy / No guaranteed outcomes / One clear CTA per asset

Replace service descriptions with verified business details before any real-world use.

Audience engagement plan

Turn interaction into a consistent service habit: acknowledge, clarify, guide and log useful insight.

01 ACKNOWLEDGE

Reply to the person, not just the metric. Keep answers direct and respectful.

02 CLARIFY

Ask one concise follow-up when their intent or question is unclear.

03 GUIDE

Give the best next step: saved post, FAQ, website page or private enquiry.

04 LOG

Record repeated questions, objections and content requests for the next review.

TOUCHPOINT	RESPONSE GUIDELINE	OPERATING RULE
Comments	Answer on-topic questions publicly when useful; move personal details to DM.	Reply within 1 business day (planning service target).
DM enquiries	Ask what they need, share verified options and invite a clear next step.	Tag status: New / Replied / Qualified / Closed.
Stories & polls	Thank participants, share a short follow-up and convert results into future posts.	Use poll totals as directional feedback only.
Sensitive / health questions	Do not diagnose or prescribe; direct the person to a qualified professional.	Do not collect unnecessary personal or health details.

Operational guardrail: only publish member stories or reshare user content with explicit permission.

Measurement & reporting framework

Track what happened, compare like with like, and leave result fields blank until the campaign runs.

AWARENESS

- Reach
- Impressions
- Non-follower reach
- Profile visits

INTERACTION

- Likes, comments
- Shares and saves
- Story replies / taps
- Engagement rate by reach

INTENT

- Link clicks
- DMs / qualified enquiries
- Enquiry source
- Response time

EFFICIENCY

- Output completed
- Top topics by format
- Production effort
- Learning / next action

SIMPLE DEFINITIONS

Engagement rate by reach = (likes + comments + shares + saves) / reach

Save rate = saves / reach | Click rate = link clicks / profile or link views

Choose and keep one definition per reporting period.

REPORTING CADENCE

- Weekly: note output completion, strongest content signals and repeated questions.
- Day 30: compare content pillars, channel actions and enquiry quality against baseline.
- Use platform analytics exports; keep raw data and assumptions separate.

TRACKING SHEET FIELDS

Date | Platform | Asset ID | Pillar | Format | Reach | Impressions | Likes | Comments | Shares | Saves | Profile visits | Link clicks | DMs | Qualified enquiries | Notes

All performance values are intentionally left blank in the companion tracker.

Optimization & next steps

Create a feedback loop that improves the system without overreacting to one post or one quiet day.

IMPLEMENTATION SEQUENCE

01	PREP	Confirm service details, audience assumptions, permissions, links and tracking.
02	BUILD	Batch the first 2 weeks of creative; create reusable Reel, carousel and Story templates.
03	PUBLISH	Follow the calendar; respond consistently; log baseline and content metadata.
04	REVIEW	At the end of each week, record patterns and choose one adjustment to test.
05	CLOSE	Summarize learnings, capture qualified enquiries and plan the next month.

WEEKLY REVIEW CHECKLIST

- [ ] Were planned assets published? If not, identify the bottleneck.
- [ ] Which topics earned more saves, shares, replies or qualified questions relative to the baseline?
- [ ] Did high reach lead to profile actions or relevant enquiries?
- [ ] Which repeated question should become the next post or FAQ?
- [ ] Was response quality and speed consistent?
- [ ] What one variable will be tested next: hook, format, length, first frame or CTA?

DECISION RULES

Compare formats and pillars against your own baseline. Repeat strong topics in a new format; revise the hook if attention does not lead to action; clarify the offer if intent is present but enquiries are weak. Set thresholds after collecting enough data.

Testing principle: change one major variable at a time and document what changed.
